

A New Standard In Drain Fixation

The Affix Clip™ is a next-generation drain securement device designed to simplify dressing changes and improve patient comfort.

SECURE. SIMPLE. COMFORTABLE.

Engineered for Effective Fixation.

The Affix Clip™ integrates an adhesive base with a mechanical locking interface to enable secure, reproducible fixation of percutaneous drainage catheters.

KEY BENEFITS

Secure

Reliable fixation reduces tube migration and dislodgement

Simple

Expedites initial fixation and at-home dressing changes

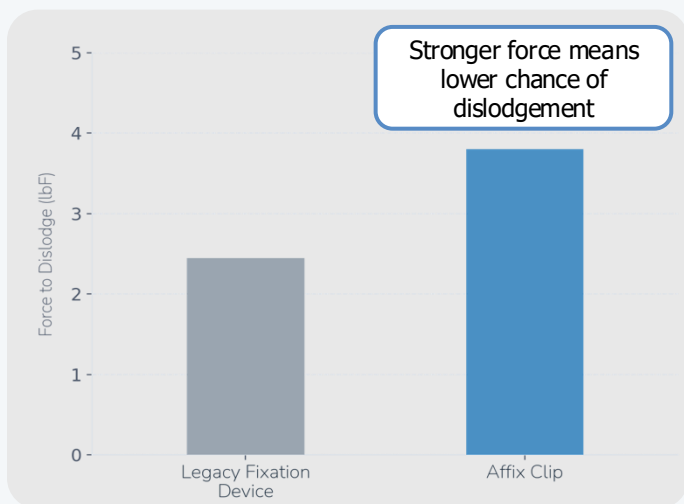

Comfortable

Has sutureless design and novel Air-Knot™ mechanism that reduce irritation

Designed for Better Care.

The Affix Clip™ supports securement across all brands of drainage catheters and comes in a box of 6 dressings. This box goes home with patients after their drain placement procedure, giving patients the supplies to change their dressings at home in a safe manner for up to 2 weeks.

STRONG FORCE OF FIXATION

NO IMPACT ON FLOW OF DRAINAGE
